Client Area Features:

- ✓ Contact Email Edition
- ✓ Routes Management
- ✓ Aliases Management
- ✓ One-Click Log In To Spam Expert Account

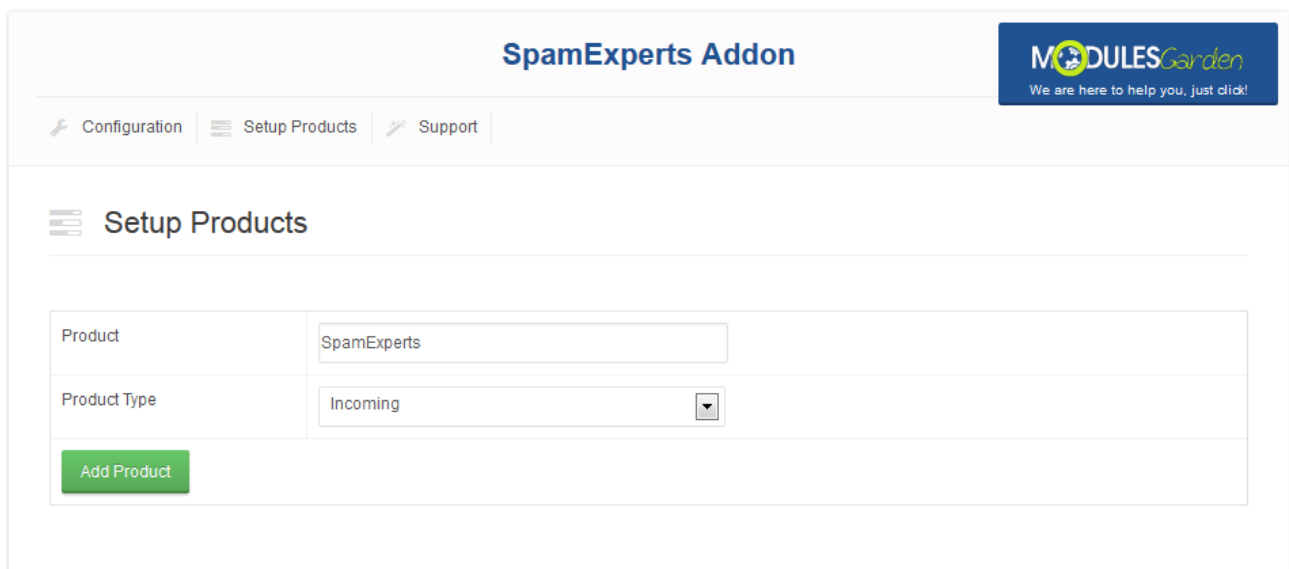

Additionally:

- ✓ Multi-Language Support
- ✓ WHMCS V5 And Later

2. Installation and Configuration

In this section we will show you how to properly install and configure your SpamExperts For WHMCS

1. Download SpamExperts For WHMCS.
2. Upload files to your server and extract SpamExperts For WHMCS to your WHMCS root directory.
3. At this step we recommend to use SpamExperts Addon For WHMCS which allows you to quickly set up SpamExperts For WHMCS products.
 1. Fill API access details at Configuration tab of SpamExperts Addon For WHMCS.
 2. Create a new product using Products Setup tab of SpamExperts Addon For WHMCS.

The screenshot shows the 'SpamExperts Addon' interface. At the top, there's a header with the title 'SpamExperts Addon' and a 'MODULES Garden' logo with the tagline 'We are here to help you, just click!'. Below the header is a navigation bar with three tabs: 'Configuration', 'Setup Products', and 'Support'. The 'Setup Products' tab is active. The main content area is titled 'Setup Products' and contains a form with two input fields: 'Product' (with the value 'SpamExperts') and 'Product Type' (with the value 'Incoming' and a dropdown arrow). Below these fields is a green 'Add Product' button.

3.2. Client Area

At the client area you can manage most of Spam Experts account aspects.

The screenshot displays the SpamExperts client area within the WHMCS interface. At the top, the WHMCS logo is visible, followed by a navigation bar with links: Home, Services, Domains, Billing, Support, and Open Ticket. The user is logged in as 'Hello, Test!'. The main heading is 'SpamExperts'. Below this, there are three tabs: Information, Addons, and Management Actions. The 'Information' tab is active, showing an overview of the product/service. A 'Back to Services List' button is present. The account details are as follows:

Registration Date:	Product/Service:	Billing Cycle:
27/02/2014	SpamExperts - SpamExperts Active mytestingdomain.com	Free Account
Recurring Amount:	Next Due Date:	Payment Method:
\$0.00 USD	-	2Checkout

Below the account details is a 'Management' section with four buttons: 1. Edit Contact E-mail, 2. Manage Routes, 3. Manage Aliases, and 4. Log In To Panel. The buttons are numbered 1 through 4 in red text above them.

In order to change your contact email, simply press Edit Contact E-mail button (1). Afterwards, fill Primary Contact Email and Administrator's Contact fields and click Save button.

The screenshot shows the 'Edit Contact E-mail' page in the WHMCS client area. The page has a 'Back' button and a heading 'Edit Contact E-mail'. Below the heading, there is a message: 'Here you can change your contact e-mail.' There are two input fields: 'Primary Contact Email' with the value 'test@modulesgarden.com' and 'Administrator's Contact' with the value '555-555-0199@example.com'. A red arrow points to a green 'Save' button. At the bottom, it says 'Powered by WHMCompleteSolution'.
