## **1. About**

SpamExperts Addon For WHMCS is a module which allows you to quickly configure SpamExperts For WHMCS products.

### **Features:**

- ✓ SpamExperts API Connection & Connection Test
- ✓ One-Click Product Configuration With Necessity Setup (Incoming/Outgoing/Both)
- ✓ Support Page

### **Additionally:**

- ✓ Multi-Language Support
- ✓ WHMCS V5 and Later

## 2. Installation and Configuration

In this section we will show you how to properly install and configure your SpamExperts Addon For WHMCS.

1. Download SpamExperts Addon For WHMCS.
2. Upload files to your server and extract SpamExperts Addon For WHMCS to your WHMCS root directory.
3. In order to proceed, go to Setup → Addon Modules and press Activate button next to SpamExperts Addon.
4. Afterwards, click on Configure button, select administrator groups which should have access to this addon and press Save Changes.

### Addons

This is where you can activate and manage addon modules in your WHMCS installation. Older legacy modules will still allow you to activate/deactivate and configure access rights, but will not be able to show any configuration options, version or author information.

Module	Version	Author			
<b>» EU VAT Addon</b> This addon allows you to configure a number of additional invoice/billing related options specific to EU invoicing & VAT requirements	2.0	WHMCS	Activate	Deactivate	Configure
<b>» PayPal Transaction Lookup</b> This addon shows your PayPal account balance on the admin homepage & allows you to search PayPal Transactions without needing to login to PayPal	2.0	WHMCS	Activate	Deactivate	Configure
<b>» Project Management</b> <span>PREMIUM</span> Track & manage projects, tasks & time with ease using the Official Project Management Addon for WHMCS. Find out more & purchase @ <a href="http://www.whmcs.com/addons/project-management">www.whmcs.com/addons/project-management</a>	1.1	WHMCS	Activate	Deactivate	Configure
<b>» SpamExperts Addon</b> Allow to create simple product, test connection, show server configuration.	1.0	<a href="http://SpamExperts.com">SpamExperts.com</a>	Activate	Deactivate	Configure
<div>Access Control Choose the admin role groups to permit access to this module: <input checked="" type="checkbox"/> Full Administrator <input type="checkbox"/> Sales Operator <input type="checkbox"/> Support Operator</div> <div>Save Changes</div>

Congratulations! You have just finished the installation and configuration of the module.

## 2. Management

At Management section we will show you how to manage your SpamExperts Addon For WHMCS.

### 2.1. Configuration

Set up SpamExperts API access details by filling API URL, API Username and API Password fields. Afterwards, press Save Changes and test connection through pressing on Test Connection button. If you will not receive **Success** statement from the connection test then check if you have set up your API access details correctly.

The screenshot displays the 'SpamExperts Addon' configuration interface. At the top, there's a navigation bar with 'Configuration', 'Setup Products', and 'Support' tabs. The 'Configuration' tab is active. Below the navigation bar, the 'Configuration' section is titled. It contains three input fields: 'API URL' with the value 'demo1.spambrand.com', 'API Username' with the value 'dummy\_username', and 'API Password' which is masked with dots. Below these fields are two buttons: 'Save Changes' (green) and 'Test Connection' (blue). A red arrow points up to the 'Save Changes' button, and another red arrow points left to the 'Test Connection' button.

*Fig. 2: SpamExperts Addon For WHMCS, Configuration tab with exemplary settings.*

## 2.2. Setup Products

If you set up SpamExperts API connection at previous page, you can easily create new SpamExperts For WHMCS products with type selected from Product Type dropdown menu. To create a new product, enter its name, select product type and click Add Product button.

The screenshot shows the 'SpamExperts Addon' interface. At the top, there's a navigation bar with 'Configuration', 'Setup Products' (selected), and 'Support' tabs. Below this, the 'Setup Products' section is active. It contains a form with two fields: 'Product' with the value 'SpamExperts' and 'Product Type' with the value 'Both'. A red circle highlights the dropdown arrow in the 'Product Type' field. Below the form is a green 'Add Product' button, which is pointed to by a large red arrow.
